ABOUT ME

I am an ICT professional from Kampala with a degree in Information Technology. I have worked in teaching, sales, customer care, finance and media, and I also build websites and simple apps. I learn new things quickly, I am honest and hardworking, and I work well with people and under pressure. I am ready to do any job I am given and to give it my best.

QUICK FACTS

- **What I am looking for:** Any job I can do well - ICT, teaching, sales, customer care, media or office work
- **Availability:** Full-time or part-time; ready to start anytime; can work under pressure
- **Location:** Kampala, Uganda (ready to travel)
- **Currently:** Volunteering at UCSCU; studying a Certificate in Theology
- **Goal:** To keep learning and grow into a bigger role

SKILLS

- **ICT & Computer Skills:** Using and setting up computers, Microsoft Office (Word, Excel, PowerPoint), internet and email, fixing simple computer problems, teaching computer skills to others
- **Websites & Apps:** I can build websites and simple apps using Python, Django, Flask, JavaScript, HTML, CSS, Flutter and Node.js, with help from AI tools such as OpenHands. I understand how they work, and I test and set them up myself.
- **Design & Media:** Graphic design (Canva), making posters and logos, editing videos, content creation, running sound and media for church services and events, livestreaming
- **Sales & Customer Care:** Direct sales, marketing, talking to customers, following up with clients, building good relationships with people
- **Money & Records:** Budgeting, keeping records, assessing loans, managing small funds, organising work
- **Leadership & People:** Leading small teams, planning events, public speaking, teaching and mentoring others, working with different kinds of people

WORK EXPERIENCE

ICT Volunteer - UCSCU - Uganda Cooperative Savings and Credit Union Limited

Kampala, Uganda | 2026 - Present

- I help with everyday ICT work at the office.
- I set up and take care of computers, printers and the internet.
- I help staff when they have computer problems (troubleshooting).
- I run errands to town and help with other office duties when needed.
- I am learning how SACCOs work from the inside.

Founder & Product Builder - Jordan Design Hub (JD Hub)

Kampala, Uganda | 2025 - Present

- I started Jordan Design Hub, where I build websites, simple apps and design work for schools, churches, small businesses and SACCOs.
- I listen to what the client needs, plan the work, build it (using AI tools such as OpenHands), test it and explain it back to them.
- I have built several working systems. Some are now used by churches and schools.
- I also design posters, logos and videos for clients.
- I handle the money and planning for each project myself.

Team Lead - Media & Technical Operations - Freelance / Church & Events

2024 - Present

- I lead a small team that runs sound, media and translation for services and events.
- I set up and run the equipment and help with livestreaming.

Direct Sales Executive - Airtel Uganda
2025
- I sold Airtel internet and WiFi packages and followed up with customers.

Code Instructor (Intern) - Code Academy Uganda
2025
- I helped students with their coding projects and built their confidence.

Physics & Mathematics Teacher - Destiny College International
2025
- I taught Physics and Mathematics and helped students improve their performance.

Credit Officer - Credit Watch Services International
2025
- I checked clients' finances and gave them simple financial advice.

ICT Teacher - Semuto Senior Secondary School
2024 - 2025
- I taught computer skills and helped students learn practical ICT.

Marketer - Apex International University
2023 - 2024
- I did marketing that increased student interest and enrolment.

Graphics Designer - Magix Graphics
2022 - 2023
- I designed posters and other materials for clients.

Sales Promoter - Jajopa International Limited
2019 - 2021
- I carried out awareness campaigns and distributed products.

PROJECTS & PRACTICAL WORK

Attendance Hub - Church & Event Attendance (in use)
- A system that records who attends church services and events, keeps member details and prints reports.
- It is running on a computer, and I also made an Android app version.

School Management System (in use)
- Helps a school manage students, teachers, fees, marks and reports. It works without internet.
- It is installed and used by a school.

Savings Bank SACCO App (in use)
- A simple savings and credit app for SACCO members, made with Flutter.

Church Media & Sound (ongoing)
- I run sound, media and livestreaming for church services and events, and train others to do it.

ClinicSync - Clinic & Pharmacy System (in development)
- A system for clinics and drug shops: sales, stock with expiry dates, daily expenses and end-of-day cash.
- It is still being built and tested, not yet in use.

UCSCU Connect (in development)
- A system being built to help UCSCU with its work. It is still in development and not yet in use.

JD Hub CBS - SACCO Banking System (prototype)
- A banking-style system for SACCOs, built as a prototype to learn how core banking works.

MyMarket.ug - Online Market (in development)
- An online market where vendors can show their goods and customers can pay by mobile money. Still being finished.

BizDocs - Invoices for Small Businesses (in development)
- An app for making invoices, receipts and quotations for small businesses. Still being built.

Kids AI Studio (prototype)
- A fun project that turns one sentence into a short children's video or song using AI.

MT5 Trading Bot (prototype)
- A practice bot I built to learn about trading, money and risk.

KJ Chat App (prototype)
- A chat app I built to learn how messaging apps work.

JD Hub Website (in development)
- The website for my business, Jordan Design Hub.

LEADERSHIP & VOLUNTEER ROLES
- **Founder & Chairperson - Apex Christian Union** (2023 - 2025): I started the Christian Union at my university and led it, organising outreaches and events.
- **GRC - IT Faculty, Apex International University** (2023 - 2024): I represented students and helped with faculty activities.
- **Team Lead - Media & Technical Operations** (2024 - Present): I lead the media and sound team at church.

EDUCATION & TRAINING
- **Bachelor of Science in Information Technology** - Apex International University | Graduated 2026
- **Certificate in Theology** - In progress | Currently studying
- **Uganda Advanced Certificate of Education (UACE)** - Mbale Secondary School | 2019 - 2020
- **Uganda Certificate of Education (UCE)** - Lugazi Homestone Boarding School | 2015 - 2018
- **Primary Leaving Examination (PLE)** - Namakwekwe Primary School | 2008 - 2014

WHAT I HAVE LEARNED ON MY OWN
- Graphic design with Canva - posters, logos and branding
- Video editing and content creation
- Church media, sound systems and livestreaming
- AI tools (OpenHands) and how to build and use AI agents
- Building websites and simple apps by working on real projects
- Teaching and helping other people learn computer skills

LANGUAGES
- English - excellent (speaking, reading, writing)
- Luganda - very good (reading); good (speaking, writing)
- Lumasaba - excellent (speaking); very good (reading); good (writing)
