PROFESSIONAL SUMMARY

Results-driven ICT professional with a Bachelor of Science in Information Technology and wide experience across software development, teaching, sales, finance, media and leadership. I find real problems in Ugandan schools, SACCOs, SMEs and churches and turn them into working software - seven products designed, built and shipped so far, including a live marketplace that takes mobile-money payments. I am a self-taught multi-skilled creator: graphic design, content creation, video editing, church media and ICT training. I lead teams, plan events, manage money carefully, and I am equally comfortable in front of a class, a client or a camera. I am open to any role - part-time or full-time - and I work well under pressure.

PROFILE

- **Role I want:** Any lucrative ICT, software, teaching, sales, media or administrative role
- **Availability:** Full-time or part-time; short-term contracts welcome; works well under pressure
- **Location:** Kampala, Uganda (open to remote and travel)
- **Currently:** ICT Volunteer at UCSCU; studying a Certificate in Theology; learning AI agents
- **Next goal:** Enrolling for a Master's in IT / Software Engineering

CORE SKILLS

- **Software & Web Development:** Python, Django 5, Flask, SQLAlchemy, JavaScript, Node.js, Express, Socket.IO, SQL (SQLite & PostgreSQL), REST APIs, HTML5, CSS3, Bootstrap 5, Tailwind CSS, Alpine.js, Jinja2, PWA, Flutter (Dart)
- **AI & Automation:** AI-assisted development with OpenHands, learning to design and build AI agents, prompt engineering, automating content and document generation (ReportLab PDFs)
- **Creative & Media:** Graphic design (Canva, InShot), content creation, video editing, church media and sound systems, livestreaming (OBS / OpenLP), branding and promotional materials
- **IT & Technical Support:** ICT training and teaching, computer literacy, web design, networking basics, software installation, troubleshooting, Git & GitHub, cloud deployment (Render), Linux command line
- **Finance & Organisational Strategy:** Budgeting, credit assessment, financial management, workflow optimisation, record keeping, project planning
- **Leadership & Communication:** Team mentorship, initiative coordination, event planning, public speaking, client relations, translation services, digital branding and campaign strategies

WORK EXPERIENCE

ICT Volunteer - UCSCU - Uganda Cooperative Savings and Credit Union Limited

Kampala, Uganda | 2026 - Present

- Building UCSCU Connect, a SACCO apex platform and internal workplace hub, to move apex operations off spreadsheets and paper.
- Worked on the SACCO registry with dues tracking, a Central Finance Facility (CFF) inter-lending workflow, and sector KPI dashboards.
- Helped add PEARLS quarterly reporting (WOCCU ratios) with CSV exports for regulators such as UMRA and the Bank of Uganda.
- Contributed to the training catalogue, events and certification, insurance (CIC Africa) claims, stationery shop, announcements, and governance tools (meetings, e-voting), plus a full admin audit log.
- Helped build workplace tools: office attendance on the local network, a visitors register, a staff discussion hub, a whistleblowing channel, document space and a shared calendar.
- Set up role-based access so admin, staff, board, SACCO and regulator users each see only what they should.

Founder & Product Builder - Jordan Design Hub (JD Hub)

Kampala, Uganda | 2025 - Present

- Founded and run Jordan Design Hub, delivering web and mobile apps, an online academy, ICT consultancy and media services to schools, SACCOs, SMEs and churches in Uganda.

- Took seven products from idea to a working, deployed state: JD Hub, MyMarket.ug, BizDocs, KJ, UCSCU Connect, Attendance Hub and the Offline-First School Management System.
- Handle the whole journey: listening to the client, deciding what to build, building it with AI-assisted development (OpenHands), testing, deploying, and explaining it back to the client.
- Set up automated processes that generate whitepaper PDFs, 48 lesson-outline PDFs, 90 marketing posters and a promo video.
- Design the brand, marketing materials and content that promote the products, and manage the budgets behind each project.

Team Lead - Media & Technical Operations - Freelance / Ministry & Events
2024 - Present

- Oversaw translation services, sound systems and media production for services and events.
- Managed technical setups for communication and public engagement, including livestreaming.

Direct Sales Executive - Airtel Uganda
2025

- Marketed Airtel internet and WiFi packages, growing customer uptake through direct engagement and follow-up.

Code Instructor (Intern) - Code Academy Uganda
2025

- Coached students through their coding projects at the Code Camp, building their confidence and problem-solving skills.

Physics & Mathematics Teacher - Destiny College International
2025

- Delivered comprehensive STEM education, improving student performance through practical, engaging lessons.

Credit Officer - Credit Watch Services International
2025

- Assessed clients' finances and gave structured financial guidance, supporting sound lending decisions.

ICT Teacher - Semuto Senior Secondary School
2024 - 2025

- Designed and delivered effective digital learning strategies, helping students build practical computer skills.

Marketer - Apex International University
2023 - 2024

- Executed marketing strategies that improved student engagement and enrolment interest.

Graphics Designer - Magix Graphics
2022 - 2023

- Developed promotional materials and designs that enhanced brand visibility.

Sales Promoter - Jajopa International Limited
2019 - 2021

- Conducted awareness campaigns and product distribution, growing product reach.

KEY PROJECTS

MyMarket.ug - Multi-Vendor Marketplace (live)
- An online marketplace where Ugandan vendors each get their own shop page; customers browse and buy without an account.
- Takes real mobile-money payments through Flutterwave (MTN MoMo / Airtel); product photos are compressed for fast loading on 3G.
- Built with Python, Flask, SQLAlchemy, Tailwind CSS and Alpine.js.

BizDocs - Invoicing for Small Businesses (live)
- An offline-first Android app that creates invoices, receipts, quotations and letters, with finger-signature locking and an audit trail.
- Handles URA TIN details, UGX amounts and MTN/Airtel mobile-money payment tracking; exports to A4 or thermal PDF.
- Built with Flutter (Dart).

JD Hub - Company Website & Platform (live)
- The public site for Jordan Design Hub: systems showcase, academy catalogue, services, design gallery and WhatsApp lead capture.
- Includes a simple shop with mobile-money payment and a secure 48-hour download link after approval.
- Built with Django 5 and Bootstrap 5; deployed on Render.

UCSCU Connect - SACCO Apex Platform (in progress)

- A platform to help UCSCU run apex operations and internal workplace processes digitally (see the UCSCU role above).
- Built with Python, Flask and SQLAlchemy.

Attendance Hub - Church & Event Check-in (in use)

- A check-in system for churches and events on a single Windows computer, with member registration, reports and Excel export.
- Built with Django and packaged as a Windows app so it works offline at the door.

Offline-First School Management System (in use)

- Covers students, teachers, fees, marks and reports, and works without internet; licensed per school and tied to the computer.
- Built with Django as an installable desktop application.

KJ - Chat App (prototype)

- A messaging app with online status, big file sharing, voice and video calls, customisable themes, a private 'vault mode' and a social feed.
- Built with Node.js, Express and Socket.IO, with an Android build packaged for testing.

LEADERSHIP & VOLUNTEER ROLES

- **Founder & Chairperson - Apex Christian Union** (2023 - 2025): Established the Christian Union, fostering spiritual growth, collaboration and mentorship; organised large-scale outreaches and events.
- **GRC - IT Faculty, Apex International University** (2023 - 2024): Represented student interests and facilitated IT faculty initiatives; advocated for student needs and strengthened academic collaboration.
- **Team Lead - Media & Technical Operations** (2024 - Present): Led translation services, sound systems and media production; managed technical setups for communication and public engagement.

EDUCATION & TRAINING

- **Bachelor of Science in Information Technology** - Apex International University | Graduated 2026 (graduation for 2024-2026 completers held together)
- **Certificate in Theology** - In progress | Currently studying
- **Uganda Advanced Certificate of Education (UACE)** - Mbale Secondary School | 2019 - 2020
- **Uganda Certificate of Education (UCE)** - Lugazi Homestone Boarding School | 2015 - 2018
- **Primary Leaving Examination (PLE)** - Namakwekwe Primary School | 2008 - 2014

SELF-TAUGHT SKILLS

- Graphic design (Canva) - designing posters, branding and promotional materials
- Content creation and video editing (InShot and other tools)
- Church media and sound systems, plus livestreaming setups
- AI agents - how they are built and used (currently learning in depth)
- Web and software development, learned largely by building real projects
- ICT training and teaching - passing skills on to students and colleagues

LANGUAGES

- English - excellent (speaking, reading, writing)
- Luganda - very good (reading); good (speaking, writing)
- Lumasaba - excellent (speaking); very good (reading); good (writing)
